## Abstract

Abstract goes here

## 1 Introduction

## 2 The model

model beschrijven + onze RL toepassingen

## 3 Experiments

### 3.1 Pong

Hier wat beschrijven over de pong environment en de challenges? bijv niet meteen een reward

### 3.2 Preprocessing?

Hoe we data eerst verwerken voor complexiteit vermindering?

### 3.3 Training details

model initializatie + parameters etc. (qua hidden layers e.d.)

### 3.4 Results

## 4 Related work

Geen idee? Misschien vertellen over PNN en de relatie tot dit?

## 5 Conclusion
